01 // QUALIFIED

Your Ecosystem.
Your Rules.

Built to adapt, Qualified lets you manage every aspect of your ecosystem. Flexibility, customization, and control are at the heart of our system, empowering member organizations to focus on innovation and collaboration.
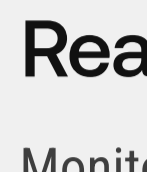

Customizable App Library
Select and enable only the apps your ecosystem needs. Whether it's sharing updates, tracking projects, or engaging with experts, the platform's modular design gives you the flexibility to build a solution tailored to your organization.

Real-Time Data Tracking & Analytics
Monitor ecosystem performance with built-in data tracking and reporting tools. Instantly generate performance reports, gain actionable insights, and stay on top of key metrics without any manual effort.

Automation of Routine Processes
Automate repetitive tasks such as email notifications, user updates, and performance reporting. This feature reduces manual effort and keeps your ecosystem running smoothly, while saving you time and resources.

User-Friendly Admin Control
Empower your team with an intuitive admin panel that allows you to configure settings, manage users, and control the platform without needing technical assistance from developers.

CRM Integration
No need to change the way you work—Qualified integrates with the CRM tool you already use, reducing disruption and allowing your team to stay connected across multiple platforms.

Community-Driven
When one customer creates an app, feature, or functionality, it becomes available to all users. This shared development model empowers your ecosystem to benefit from collective innovation.

02 // QUALIFIED APPS

Tailored Apps for Every Ecosystem.

ORGANIZATIONS
Your Ecosystem at a Glance
Keep your ecosystem organized and transparent. The Organizations app can automatically create detailed profiles of each member organization, acting as a smart directory to help you find the right partners and schedule meetings effortlessly based on custom search filters.

PROJECTS
Collaboration at Your Fingertips
The Projects app empowers users to effectively organize, invite, apply and collaborate on innovation projects. Users can seamlessly connect with one another to find the expertise they are missing to complete their project requests.

EXPERTS
Connect with Industry Experts
Bring in external expertise when you need it the most. The Experts app enables users to easily search, invite, and collaborate with experts across different fields. Create your own profile and set up meetings with experts from your own and other Qualified ecosystems, ensuring seamless engagement with specialists who can Drive Innovation forward.

ANALYTICS
Track Success with Data-Driven Insights
The Analytics app lets you track key metrics and monitor engagement levels across your ecosystem. With customizable dashboards and automated reports, you can visualize trends and make informed decisions without the hassle of manual data collection.

FUNDING
Funding for Members
Provide your members with relevant, timely funding opportunities sourced directly from trusted organizations. Keep your ecosystem informed and ready to seize funding.

Share & Notify
Easily share funding calls across your ecosystem and create custom notifications to alert member organizations. Ensure no opportunity is missed with tailored outreach.
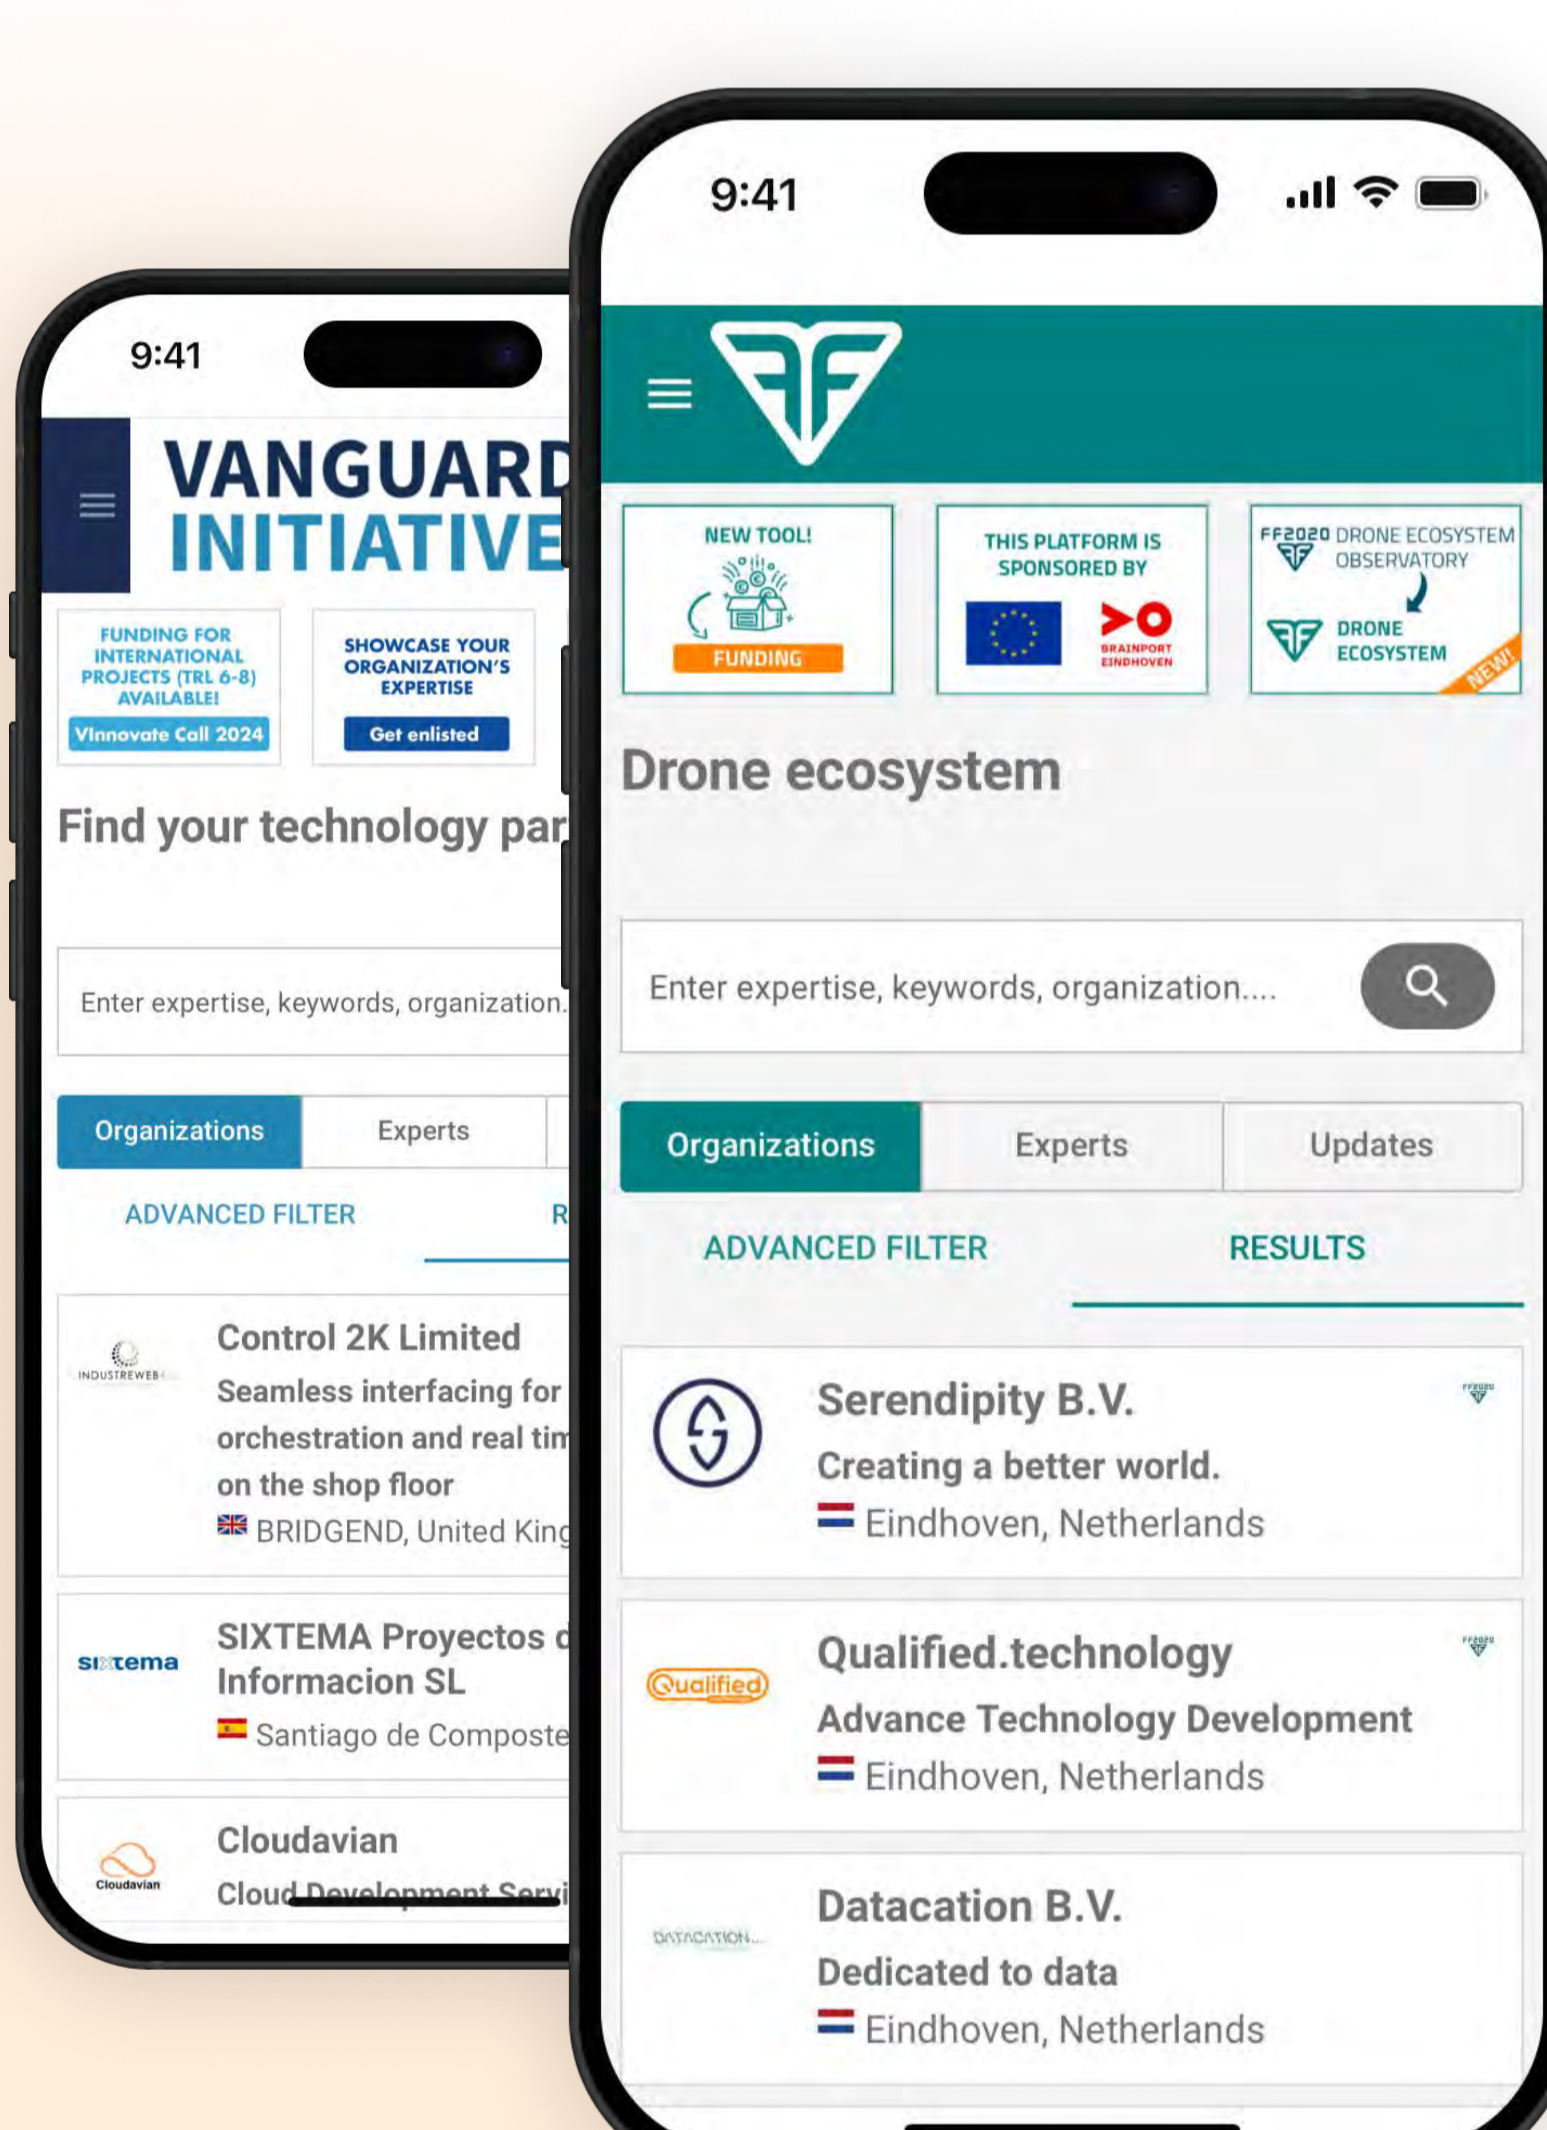

Express Interest
Allow member organizations to express their interest in funding opportunities quickly. They can outline their potential roles and contributions, making it easy to initiate collaboration.

Maximize Participation
Monitor the status of interested parties to create or suggest consortia. Effortlessly guide your ecosystem towards creating funded projects that Drive Innovation.

03 // WHITE LABEL

Seamless White-Label Integration.

Domain Integration
Operate the platform directly on your own website's domain, delivering a fully native and branded experience for your users.

Custom Branding
Personalize the platform with your logo, colours, and language, ensuring a consistent and professional brand presence throughout.

Private Ecosystem
Your platform is a standalone environment, accessible only for your ecosystem. This private environment ensures the safety of your users' data.

Tailored Layout
Customize menu items and seamlessly integrate your own URLs, ensuring your members can easily navigate and find what they need.

> "Qualified has enabled us to streamline the flow of information and interactions between European regions. This efficiency has empowered Vanguard to create impact and drive more collaborations."
> **Network Manager**
> Vanguard Initiative

> "Through Qualified, we've found valuable partners to collaborate with, exciting projects to further develop our products, and international funding opportunities where we now apply our artificial intelligence expertise."
> **Founder**
> Datacation

04 // BENEFITS

Why Choose Qualified?

Custom Service
We're with you every step of the way. From onboarding to scaling your ecosystem, our dedicated team provides personalized support and hands-on guidance to ensure you get the most out of Qualified.

Cross-Platform Collaboration
Break down silos and foster seamless collaboration across ecosystems. Qualified enables you to connect with partners, experts, and teams beyond your ecosystem, driving innovation collectively.

Platform Evolution
Benefit from a platform that grows with you. As new features and functionalities are developed, they become available to all users, ensuring your ecosystem remains cutting-edge.

### Customizability for Unique Ecosystems
No two ecosystems are the same. That's why we offer custom development hours, so you can adapt the platform to meet your exact needs.

Admin Control
Easily manage your ecosystem with intuitive admin panels—no developers needed. Enable apps, publish organizations, and customize settings with just a few clicks—putting you in the driver seat of your platform.

Effortless Onboarding
Quickly onboard ecosystem members in bulk by simply entering their URL, which automatically generates their organization profile using online data.
